

Pinnacle Computer Systems LLC sells IT products to companies across the globe

Pinnacle Computer Systems LLC has created a reputation in the local market as a service leader with a proven track record of providing the very best IT systems solutions which are both cost and time effective. By registering with Tejari in April 2008 the company was able to reach a worldwide audience and allowed the company access to a large buyer database, thereby enabling it to dramatically increase its scope and volume of business across the globe. In a short span of just 6 months, Pinnacle has sold large quantities of DELL batteries and other IT peripherals to various buyers through the Tejari portal MylinkDubai.com. The portal was jointly established by the Dubai Economic Department and Tejari leveraging the international appeal and credibility of Dubai and the UAE. Through the portal, Pinnacle has received numerous offers from buyers across the globe, providing the company with the opportunity to extend its network of contacts in a relatively short period of time.
