How to setup your Tejari RSS Feeds?

What are RSS feeds?

RSS stands for Really Simple Syndication and it is a great way to receive updated content from your favorite websites without having to visit it.

RSS makes your life simpler by bringing in content from your favorite websites into a central place. It saves you the time and effort of going to different websites and looking for updated content.

On Tejari.com, RSS Feeds will be available for Auctions, Products, Buy Leads & Showrooms (Exhibitors).

How do I set up my RSS feeds on Tejari?

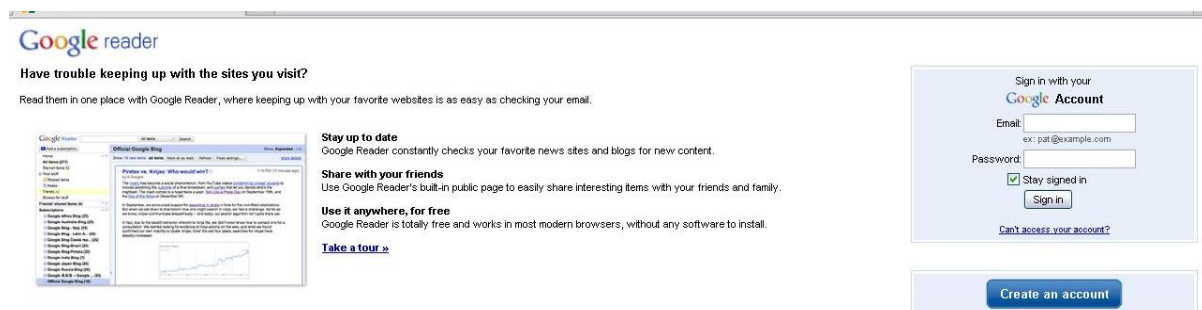

You first need to have an RSS Reader. It basically captures your RSS Feeds, updates it and stores it in one place for you to read. If you have Outlook 2007, [please click here](#) for instructions to set up your RSS feed.

Below are some of the popular RSS Readers

- Google Reader: <http://www.google.com/reader>
- Feedly: <http://www.feedly.com>
- Bloglines: <http://www.bloglines.com>
- FeedBucket: <http://www.feedbucket.com>

For our illustration, we will use Google Reader as our RSS reader.

Login to your RSS reader.

You will see a button called "Add a subscription" on the top right.

If you need further help, do email us on customerservices@tejari.com

Click on Add a subscription button

This opens up a text box where we need to enter our RSS feed URL.

To get the RSS Feed URL, please go to Tejari.com and click on the RSS button on the top right hand corner of the menu bar.

This will lead you to the following page, where you can choose the appropriate feed for your RSS reader.

TEJARI RSS FEEDS

Subscribe to Tejari's RSS (Really Simple Syndication) feeds to get Tejari updates delivered directly to your desktop!

Tejari supports 4 formats of RSS feeds (Atom, RSS 2.0, RSS 1.0 and RSS 0.91), please pick "RSS Atom" if you don't know which format to be used as it is managed by most of the commonly used [RSS readers/aggregators](#).
